From easy detail, we are sure you will find the right paper snowflake for you. * This post contains affiliate links * Remember catching a snowflake on your hand and observing its shape before it broke up? EA's really amazing when you see the perfection of this small ice crystal. If you've never done this, we invite you to take a magnifying glass and hunt snowflake the first chance you get. You will be mesmerized. The snowflakes are really something special, and as they say one every snowflake is unique, so we made sure to capture some 'of this uniqueness by creating a series of paper snowflakes this is how to make the paper snowflakes! pack (hopefully the first of many). This package includes 20 different snowflake designs with a short tutorial at the bottom of each page, also a demonstration of how the end of a snowflake card should look like. We like to do simple crafts, so we made sure that there are enough simple designs to make. All you need is to choose the ones you like (or all of them, of course), print them and cut out the circle. As you know as intricate designs too, some of the advanced printable templates are included too! If you want, you can use a colored paper, or simply use a normal color and the whole square with your favorite markers before cutting. After you get to know the concept of bending snowflakes, your kids can try making your own snowflake designs to make your unique collection. Making snowflakes is a fun and simple internal activities and what is better, can be used as decoration beautiful winter on your windows or walls. Ready to do about them? Go! How to make paper snowflakes you need: our how paper models of printable snow (you can grab the end of this tutorial) plain paper (the lighter and better as heavier paper is difficult to cut) scissors We also use a craft stick to make sharper creases. You can also decorate your paper snowflakes with glitter glue to make them even more elaborate. Watch the Video Tutorials Follow the instructions step by step Choose your favorite snowflake patterns and print them (hold the model at the end of the tutorial). Simplified instructions is included on each page, which makes this a large project in the classroom. We used a normal print card, but we recommend using the Lightest card, which you have, to make the cut easier. Use scissors to cut the square. First, you need to bend the square to half to get a triangle. Fold this triangle to half, as shown in the picture, followed. It will be necessary to fold the left and right side of the triangle towards the back. Your future snowflake should look like this. Cut the parts donate t need. You Start cutting the upper part of the bent snowflake. Cut the lines to cut out the area 'A' -> 'A' "Gray" - the area is marked in the short tutorial at the bottom of each page. Open the snowflake finished gently and slowly. Your snowflake is Done and ready for the display. Get the paper snowflakes templates here Take the models here.
