Synergy for android

Synergy apk for android 10.

Browse mobile communications Synergy Android Client Brought to you by: mcombell, pengliang, spattersongt Android One of the synergy client port to the Android platform. See . Currently in the planning stage. New developers are welcome to attend. ** Requires a modified Android with access to / dev / uinput (such as Cyanogen) ** If you like Synergy, donate to the project If you find this useful client, give the original creator Dogecoin : GNU General Public License version DFQj57xv8ujR44RPtkMU9jS5bR3rTYh7j 2.0 Web site (GPLv2) Synergy Android client Login to rate this project reviews 4.9 of 5 stars ease 1 of 5 2 5 3 5 4 5 5 1 5 of 5 3/5 presents 2 of 5 3 of 5 4 of 5 5 of 5 3/5 drawing 1 5 2 out of 5 3 out of 5 4 out of 5 5 out of 5 3/5 support 1 5 2 5 3 5 4 5 5 5 3/5 This is a awesome project! sin that is left from the five years, all the luck to keep up with it? I'm trying to use it at the time, but it does not connect, perhaps one outlet port through I could not use Android with Android, I'm using OS Phoenix with your phone, and both apps keep crashing, on both devices. Thank you for the beginning of the work on this project. I can not find the user manual. He does this work on a rooted Nvidia shield? It runs on Android KitKat ODROID C1, so I'm happy. Now I can use my keyboard and mouse on my Android tablet! Great! I'm trying to use it at the time, but it does not connect, perhaps one outlet port through works on Android KitKat ODROID C1, so I'm happy. Now I can use my keyboard and mouse on my Android tablet! Great! Good job! I have some problems in the beginning, but by reading the manual as soon as I find my problem was I was not using "mode High "and know the scroll lock key too. Thank you !! Hello! Not a geek here. I successfully configured the APK Synergy Android and Desktop Synergy Application Both the withg connection approach ... However, I can't see the cursor cursor My Android, someone can please give me the instructions to do it, to use my keyboard on my phone? Thanks . Continue so! You Rock guys! I love it! Having my note II in a cot next to my home computer (Linux) or work (Windows), and to be able to move only my mouse to the left to check the Whatsapp or SMS that you just entered, or apply some Update from Google Play ... etc. I hope the bugs can be tested very soon, and I will be a power user of this app :) (I already used the synergy between Linux / Windows regularly, for years) Synergy for Android is great app. Thanks! SynergyAndroid is wonderful! Thanks. Android is the future! SynergyAndroid is fantastic! Cool project, thanks for the presentation! Very useful tool, thank you! Not yet working on ASUS TF101 and Samsung Galaxy S II (both IC) ... Continue to develop, I really want it. In reality I'm studying something like the development of apps right now, so maybe you can unlte you a little time ... it works! I wanted it for a while. The Android customer is the best thing best for Synergy! I would really like to see this move forward as it is an easy solution for those who have more or /s of running at the same time really happy to see someone is developing this. I also hope that Bluetooth-style mouse support will be available for tablet. While waiting for this I suggest people to try "WiFi keyboard" from the Android market. If you resize the browser window the smallest possible you can click on or at all-tab for it and use it really is a really nice working keyboard support. I can't use the latest version on ASUS TF101. I don't know why. Download the code and test it. Thank you for the developer. Android has already keyboard and mouse support for Bluetooth. I use it all the time and install the synergy on every computer I have your hands. I would also like to have it on my tablet. Surely it would accelerate the development on the table! Continue so! I accept that they should mention or support it on the synergy site. Lots of Android tablets outside could really benefit from this wonderful idea. I would really like to use the synergy on my Android device :) great idea to bring this software, they should mention it on the Synergy website! Company categories related to SYNERGY POWER, we are passionate to provide the best service to our customers. This is why he designed the new Synergy Power app for iOS and Android devices. The app provides a superior way to get in touch with our team, get quotes and stay in touch. The app is free! Download it today and look at the benefits of working with us.
