Page 24: Rogue is a 24 novel by David Mack, set in between the events of Season 8 and 24: Live Another Day. From the publisher[The time is 8:00 PM.Jack Bauer is a man without a country, a fugitive without the most powerful nations in the world. He lives on the run, survives by his wits, and finds purpose in his exile by waging a one-man war against those who profit from the deaths and sufferings of others.On a self-imposed crusade to destroy the criminal empire of international arms dealer Kar Rask, Jack has infiltrated the crew of one of Rask's freighters. But his mission is disrupted when the ship is hijacked by a band of suspiciously well-informed pirates off the coast of Somalia.As Jack fights to free the ship, he discovers a deadly secret hidden in its hold: a prize the pirates were hired to steal, and that could be used to ignite a world warunless Jack captures it first.Synopsis[Background information and notes][On July 23, 2016, 24: Rogue won the 2015 Scribe Award for Best Original Novel - General.The novel is set one year, seven months and twenty-three days after the events of 24: Deadline, which in turn was set in the immediate aftermath of Season 8. After the gunfight between Rask's men and Osman's pirates on the ship, Callum Trent notes that there are a few of the pirate's corpses among the dead. However, the numbers given later in the book do not account for this and confirm that Jack kills all of the pirates that boarded the ship.Appearances[] External links[] Preceded by:UndergroundTimeline:RogueFollowed by:Day 9 Page 4 This category lists articles and subcategories related to 24: Rogue.
