I am a boy basic data and really uses FoxPro as an Excel spreadsheet. But life does not go that way when you work with other people. If your program does not work, my friend and I would have resorted to a manual correction using an ASCII or Hex file viewer and changed hands Binary to fix corruption. What kind of resistance that it was. Well, this is not successful. So I say a good job and get my vote and the future of PR. Thanks again. It's worth it. DataNumen Excel Repair has saved the day and recovered the necessary data from my corrupted file. It's extremely easy to use, has worked very well for my needs, and I highly recommend it! It worked beautifully! All my terms and my cross-referenziati data (possibly complicated) are now back! THANK YOU!! During the summer I had free time to work on things, but we start early in school and I'm more caught in a physical work of computer work, and I have not had the time (or the heart) to sit down and re-insert seven hundred ninety-two terms of biology , definitions and references! I was literally sick to the stomach at the prospect. I hope you have a wonderful rest of the week and a restful and enjoyable weekend! Read Morethe Excel Repair Tool has been able to extract all the text data from two corrupt Excel files that were opened and saved when I was a PC crash. However, the tool could not recover everything with all formatting (bold, colors etc.). Lost along with about half of the formulas (mainly the complicated linking the sheets connected to-together). Where there were possible problems, the tool cut an existing worksheet in additional sheets à à so you know where to check for leaks - a great idea. Overall an outstanding result © since the data was the hardest part to be restored from the original source. One of the files has been so severely mangiato that could not be copied, open (or even deleted!) With any MS program! Overall, the tool has saved me around a week of work. It took less than a day to restore the files to normal repeating the formatting from a very old version of the file and select the data.
