Bandicam 2025 comes with new features, including the blur function, all display recording functions, whiteboard, and advanced real-time drawing features. Upgrade your Perpetual License to the latest version to take advantage of enhanced security, features, stability, performance, and user experience.
Blur effects have been added, which allow you to blur a specific area of the screen being recorded. Bandicam will automatically resume the recording upon detecting keyboard or mouse input, and pause it when no input is detected. This function is especially useful for continuous 24/7 PC recording. You can use and change various drawing hotkeys such as Circle drawing, Color selection, Whiteboard, Ellipse, and Clear all.\*
Tip! If you press the [Shift] key, you can draw straight lines, squares, and perfect circles. You can now use a whiteboard while screen recording, making it easy to create lecture videos and tutorials. Bandicam is now able to record multiple monitors when Bandicam starts.

Bandicam can record plays of the latest online games in real time and directly upload them to YouTube without additional encoding. Videos with 1080p/4K quality can be produced for YouTube.
How to upload recordings to YouTube \*
The user interface is sleek, simple, and easy to use. The quality of the videos is very good, and there are numerous settings to choose from. I would highly recommend this product to anyone trying to record themselves playing games. I had been using a free version from a competing company until I was recommended to Bandicam. I recently purchased Bandicam's license and have been using it for four days with my six-year-old laptop without encountering any delays or issues. The interface is intuitive, and the recording setting descriptions are easy to understand even for beginners. More importantly, the quality of the program justifies its price. Bandicam can record plays of the latest online games in real time and directly upload them to YouTube without additional encoding. Videos with 1080p/4K quality can be produced for YouTube.
How to upload recordings to YouTube \*
The user interface is sleek, simple, and easy to use. The quality of the videos is very good, and there are numerous settings to choose from. I would highly recommend this product to anyone trying to record themselves playing games. I had been using a free version from a competing company until I was recommended to Bandicam. I recently purchased Bandicam's license and have been using it for four days with my six-year-old laptop without encountering any delays or issues. The interface is intuitive, and the recording setting descriptions are easy to understand even for beginners. More importantly, the quality of the program justifies its price. This screen recorder is a specific time on a daily/weekly schedule. Record the system audio and your voice at the same time. Add a mouse click effect and animation while recording. Record only the audio without recording the computer screen. Click Images to view screenshots of Bandicam If you have ever recorded your screen or gameplay, sometimes you may have wanted to remove any unwanted parts of the video or merge more than 2 video files. Bandicut is an essential program for Bandicammers who want to precisely and quickly cut parts of videos and join multiple videos. Purchase Package Bandicam 透過進行硬體加速實現優化錄製效果，生成清晰乾淨的高清錄屏影片。您可以在錄製軟體操作，網路教學，Zoom 視訊會議，線上影片後獲得保持原畫質和音訊的檔案。
螢幕錄製時，可以手繪塗鴉，添加文字，劃線，高光，螢光筆、畫框等註釋，令您的影片更酷炫，更生動！
