Improved Big Question Panels promote discovery and autonomy by asking students to further investigate the Big Question and personalise their answers. Online Practice includes automatically marked activities, discussion and message tools, alongside NEW Teacher's Resource Center. Try Online Practice on mobile, tablet, PC or Mac. NEW Teacher's Resource Center allows you to access all your teaching resources in one place. NEW 'Assessment for Learning Package' to measure students' progress in 21st Century skills and reading comprehension. NEW Teaching Strategies for Oxford Discover videos linked to the Teachers Guide give a practical guide for different elements of the course. Inquiry-based learning encourages student involvement, promotes collaboration and teamwork, and pushes student to think creatively. Students employ the four skills of listening, speaking, reading, and writing as they identify questions about the world around them, gather information, and find answers. Oxford Discover supports an inquiry-based approach to learning English. Each pair of units in Oxford Discover revolves around a thought-provoking 'Big Question'. A controlled vocabulary and grammar syllabus gives students the language support they need to explore and discuss each topic. 21st Century Skills are an integral part of the Oxford Discover course. In an age of rapid change and advances in communication and technology it is important that today's young students continue to develop strong skills in the four main areas: Critical thinking Oxford Discover encourages students to think deeply and assess information comprehensively. Students are invited to be curious and to think beyond their normal perspectives. Communication Oxford Discover offers students plentiful opportunities to become effective listeners, speakers, readers, and writers. Every unit has two pages devoted comprehensively to communication, but these skills are also utilized in general tasks and exercises. Collaboration Oxford Discover offers opportunities for collaboration in every lesson, with students working together in pairs, small groups, or as an entire class. Creativity Oxford Discover encourages creativity throughout each unit by allowing students the freedom to offer ideas and express themselves without judgment. Tapered content in the first six units of Level 1 ensures a smooth progression between Kindergarten and Primary, making learning more manageable, and equipping every student with the confidence they need to succeed. In addition, today's young students must develop life and career skills, information, media, and technology skills, as well as an appreciation and concern for the health of our planet and cross-cultural understanding. Oxford Discover strives to help students build on these essential skills in order to succeed in the 21st century. www.frenghish.ru Angela Buckingham Bryan Stephens OXFORD UNIVERSITY PRESS www.frenghish.ru OXFORD VDOC.PUB Download Embed This document was uploaded by our user.
