16/02/2021 · Read about the latest tech news and developments from our team of experts, who provide updates on the new gadgets, tech products & services on the horizon. 15/07/2019 · Video Classification with Keras and Deep Learning. 2020-06-12 Update: This blog post is now TensorFlow 2+ compatible! Videos can be understood as a series of individual images; and therefore, many deep learning practitioners would be quick to treat video classification as performing image classification a total of N times, where N is the total ... This book is written in Python 2, which isn't hugely different from Python 3, but it isn't worth getting confused while you're trying to understand things. Although there are Python 3 equivalents in the book, i think it's hard enough learning a programming language without getting confused between version 2 and 3. 26/02/2022 · The books on this page are all general introductions to the Python language. Most of these books will contain a few chapters on particular applications such as GUI interfaces or Web programming, but won't go into great detail on any one topic; refer to the PythonBooks page for lists of application-specific books.
