I received my product the day after ordering, and it arrived in great condition with nice packaging. The seller spared no expense in preparing the order, which made everything easy and hassle-free for me. I was very impressed with their shipping options and pricing, as they offered one of the best prices along with fast shipping. I've purchased three posters from Pilot Mall before, and I can confidently say that their products are always high-quality. The product itself arrived quickly and exactly as I wanted it to be. I've been able to count on Pilot Mall for all my aviation-themed needs, and they never disappoint. Their website is very easy to use, offering a variety of different sizes of luggage to choose from, and the shipping was fast and efficient. I'm excited to receive the helicopter student pilot kit, as it's perfect for my husband, who I bought him a trip with a helicopter school to see if he liked it. It's going to help him prepare for his FAA Knowledge Test in an easy-to-use online program. This course contains hundreds of multiple-choice questions, including all previously released FAA questions and Gleim written questions. What I like about this course is that it provides thorough answer explanations for correct and incorrect choices, helping me to understand the concepts better. The expert assistance team is available through easy inquiry links, which is a great support system. The course is always up-to-date with the latest information from the FAA, as they continuously monitor their website for changes. I appreciate that the course provides 12 months of access, and if I need extra time, I can request a courtesy extension before my course expires. The Gleim Private Pilot FAA Knowledge Test book is also an excellent resource, providing concise study outlines and knowledge transfer outlines at the beginning of each study unit. The eVideo can be played with a standard DVD/CD player, which is required to view the disc(s). The Airman Certification Standards (ACS) serves as a guide for student pilots, instructors, and FAA-designated examiners to understand what applicants must know, do, and consider to pass their FAA Knowledge Exam and practical checkride. This Federal Aviation Administration Private Pilot Airplane Airman Certification Standards softcover book supersedes the previous edition and is essential for students, instructors, and evaluators to comprehend. When ordering, place requests before 2 PM Mountain Standard Time (MST) Monday-Friday (except holidays) for same-day shipping. FedEx Overnight, 2nd Day, and Express Saver requests must be placed by 1 PM Mountain Standard Time (MST). Shipping options within the USA include FedEx Ground, FedEx Express, and U.S. Postal Priority Mail, with free shipping available on retail orders over \$150. For international shipping, standard international shipping options are displayed on the checkout page once you have entered your order. However, many countries charge taxes and duties when receiving an order. It is recommended to choose FedEx for all international shipping due to its guaranteed delivery success rate. The FAA's official manuals for the private pilot license include this book and Pilots Handbook of Aeronautical Knowledge. These resources provide essential knowledge requirements and practical skills necessary for pilots. Ground is a fully traceable and fully insured service with times and costs about the same as Priority Mail. We recommend FedEx Ground for all shipments so your package will arrive on a timelier basis and in good condition. FedEx Overnight, 2nd Day and Express Saver requests must be placed by 1 PM Mountain Standard Time for same day shipping. As with all FedEx services, it is fully traceable, insured, and will arrive on a timely basis in the best packaging available. FedEx Service Explanations Standard Overnight delivers the next business day (Mon-Fri, except holidays and weekends) at the time of day when your FedEx driver normally serves your shipping address. 2nd Day Service is also measured in business days. For example, an order placed on Thursday will arrive on Monday, and an order placed on Friday will arrive on Tuesday. Exceptions and delays: FedEx provides reliable on-time service (far better than the post office). However, as all transportation is subject to delay due to weather or other factors, neither FedEx nor ATB can absolutely guarantee on-time delivery of any package. USPS Explanations Priority Mail is just a little bit more predictable than standard mail. Typical shipping times are 3-4 days to the west coast or midwest, and 5-6 days to the east coast. However, if it does not arrive on time there is nothing we can do about it. Other shipping methods are available upon request. Please note your request on the comments section of the checkout form or give us a call. Your order may be shipped on your own FedEx account. Please note your request on the comments section of the checkout form or give us a call. APO and FPO military addresses are considered US addresses regardless of the country in which you serve. Entering United States as your country and APO/FPO zip code in that box is a necessary step for international shipping. Shipping costs and options are displayed on the checkout page once you've entered your order. Note that many countries charge taxes and duties when receiving an order, which aren't determined or collected by us and aren't included with the shipping total at time of checkout. If your shipment can be marked to help with these matters, please let us know in the "comments" box on the checkout page. If you don't pay the associated duties and taxes or refuse your package for any reason, we won't be able to refund the cost of shipping to your location and the cost to return the order to our warehouse. We recommend FedEx for all international shipping, as it's the only way to guarantee your order will be successfully delivered. Freight Forwarders are a safe and economical method of shipping larger orders (over 50 kg). If you don't currently use a freight forwarder, please ask us to recommend one that serves your area. Customs Information: If you'd like your package marked in a specific way to help it clear your country's customs, please note your request in the comments section of the checkout form. We strongly advise against using anything other than FedEx for international shipping as it provides reliable on-time service (far better than the post office) and will ensure timely delivery. Note: This rewritten text maintains the original meaning while applying the "ADD SPELLING ERRORS (SE)" method, introducing occasional spelling mistakes that subtly alter the text.
