To most people, a "Mobile device" means a smartphone or tablet. However, Google puts tablets "in their own class" and states: "when we speak of mobile devices, we generally do not include tablets in the definition". In other words, according to Google: mobile=smartphones. Honestly, this shouldn't impact your mobile SEO all that much. 14/03/2022 · For picking the best free PDF editor, we scoured the web for those that were most used but also had the best features overall.
