Please consult our privacy policy at See our service terms at or comments? We want Send us an e-mail to support@mobilityWare.com.Spider Solitaire is created and supported by mobilityware, July 13, 2021 version 5.9.0 Solved some bugs and performed different back-real optimizations to help improve performance. I played this game forever! It relaxes me. It's a great game. I give five stars. But there are two problems that make it extremely difficult to enjoy. The first is the announcement. Not because there are announcements. I understand it (well, type of), but I do it. I don't have a problem problem they. Until recently. With new ads there are almost always at least 3 different pages we are at having to do outside the announcement. Because - why do we have to x that many times for a single announcement? ThatÀ € doesn't s worse. The worst is that you can never get the X to work. It brings back to a different screen and you have to play this game until you finally work and let you escape. TRULY? Are you kidding me? This game is played for fun and above all relaxation. This situation is not relaxing at all! Please change the ads or get different announcements so that it donates t have to do with this. The other is that I am so many times when I get the same game - same cards, plus and more times. Sometimes it's a different game in the middle, but then they will repeat. EA € s a cycle doesnÀ € t seem to go out. It is often done forever, but it can happen for quite a while. IA D love if you could really try to understand these problems. I cancel this if it is not fixed or modified. It is only not worth aggravation when I need sleep. ID rather not though. I thank you for your game and your time. Hi, thanks to reach! We are happy to help you! I'm sorry you met anomalous behavior ads. Our team needs some information about the help device. Please use this link contact us with your ID MW-65.651 so our team can help. We look forward to your reply! Like many of the other Mobilityware card games you can play the Daily challenge to get a crown and have recently added daily tasks that are fun. Funny card game. But, as a suggestion for the developers what I would love to see much is to be able to get the daily crown for all the 4 versions of the daily challenge. That if you select 1, 2, 3, or 4 seeds under the options that will give you a daily challenge with as many clothes. So there are actually 4 different daily challenges every day depending on how many clothes you have chosen as default, but you can only win the crown once a day, so you have to choose one and reproduce it. But it would be fun to get a double, triple or quadruple crown depending on whether you could defeat all the choices suit in a single day (which is playing that suit game daily challenge get a crown, now pass under the options for two clothes, game The daily challenge in two suits and get that crown and so on) I only think it would be a fun challenge - How many of us could get defeated all 4 for a day? Hi, thanks for the revision. We appreciate your suggestion regarding the Daily Challenge! We are also happy to know that you are continuing to enjoy our application. If you have any questions or comments, please contact us. Thank you for playing! Sometimes it crashes on the transition from the WareÀ € mobility to the game, and sits there for perhaps a 20-second apartment. Then, when you load a game, you need to wait another 20 seconds before you can start the cards move around. So, if you go to another application, or you really donate t even need to go to another app. If you press the Home button twice, then tap in Spider Solitaire again, you will still wait about 20 seconds before it allows you to do everything that one although just to be out of the game for less than a single second. It is annoying when you share for a fraction of a second to answer someone, then return to the Solitaire app, they have to wait before you can do anything and for the moment you can, your friend has already sent a message back. Sometimes, if youÀ € I went to the app for more than a couple of seconds, then the whole restarted And you have to wait through the entire loading process again and everything. However, I have havenÀ € t found another solitaire format, which I like most and this is the only game I found that it works in vertical mode. Just get rid of insects !!! If other applications can be reactive after returning to the app after a short second, then it can a bit simple card game. Hi Chsufvkak, thanks for your feedback. We would like to understand why you are six Problems with our game so that we can prevent that happening in the future! Open the game settings page, select Support and then contact us so that our team can get more information on the device you are using. We look forward to your reply!
